knowledge. Often those who speak the most or more often get more attention.

getting record keeping systems, developing priority for future bonds, hopefully to capture things that do not get covered with this bond.

Monty Exter expressed concerns about relying upon one communication channel, social media

1. Putting out engagements? Getting contact tack? Maggie is part of the implementation team,
2. It's very obvious district doing engagements, are they also focusing on how they can be expanded?

Examples include
